

Icebreaker Pheromone Cologne

The **Ice Breaker Pheromone** product is one that makes a plea to be able to increase the amount of **pheromones** you are producing and to help you get people to feel safe and delighted around you. Though it has the right ingredients, it does not work as it should, for a variety of reasons.

Review

The Ice Buster **Pheromone cologne** product provides eight social and **sex pheromones** to help with making people feel calm and also confident you deal with. These include Androstenone, which stands for the belief of male dominance. This could cause aggression in certain males.

Androstanone is the second element. This buffers the lack of control found with androstens, and also strengthens the social effects. 3rd, you have Androsterone, which promotes a sense of trust with folks who might come your chums.

- Next, you have Androstenol, which decreases inhibitions and creates a strong social-lubricant result.
- Another ingredient is dehydroisoandrosterone, which has a mild pheromone effect.
- Combined with the other pheromones, it makes them more powerful.
- Another component is Epozyestratrienol, which helps to alleviate the irritability found in several girls during ovulation.
- Next, you also have Tetrahydrodeoxycorticosterone, which permits the pheromones to be active for several hours after you have used this.
- Last, it also includes oxytocin, which can be an element that creates a strong feeling of trust, as well as a deep connection.

Ice Breaker Pheromone Pheromones Pheromone Cologne Pheromone

Duration

When you use the Ice Breaker Pheromone, you are going to be in a position to see the consequences of it for one or two hours, at least that is what is claimed by the manufacturers. You should spray the item, just a spray or perhaps two, onto yourself and it should last for several hours.

Ease of Use

The Ice Breaker Pheromone is easy to use, as it is simply a spray. However, it can be sophisticated to be able to figure out how many atomizers to use, and how far away to hold the bottle from yourself while you are squirting. This can cause a mis-dosage, also to a person to not get a lot of or getting too much of it.

Effectiveness

Although the Snow Breaker Pheromone claims to be able to draw ladies to men with ease, this doesn't happen seem to do much of anything in any way. It appears to be that when the person uses Glaciers Breaker Pheromone, they simply experience a time in which they feel more in control and more upbeat and thrilled, which makes them even more tasty to females after that they have been before. As a result, the Ice Breaker Pheromone doesn't appear to be that efficient.

User Experience

When you are using Ice Breaker Pheromone, you are going to find that you do feel more confident, but the particular product has almost no bearing on regardless of whether you meet people easily.
