

Love bond, natural or driven?

We may be unaware and totally clueless that we actually get attracted for the other with the help of **pheromones**. It functions without ever registering it's special effects. It can be seen in the couples whom we think may never go along. Sometimes we also see two different personalities together. Do pheromones work so perfectly is really shown by this. Even the studies have revealed that many couples who would normally not date with each other gets drawn due to the power of the pheromones. When it would not have been a natural process many of the relationship today would never had existed. Unknowingly the when the pheromones introduced by you really has more effect then others.

Do pheromones work in actuality? In order to realize that one should begin to see the couples one knows about. After looking them you may feel them to be completely mismatching as if they have nothing which is common between them but then they love each other a lot. The most effective pheromones are the one which is produced naturally. While we question do pheromones work, there are different products prepared out of the similar types of the pheromones that our body produces.
